
MENINGOCOCCAL

A school requirement
for 12th graders

Required Vaccines:

Meningococcal vaccine

Protects against bacterial meningitis

2 doses are required unless first dose was given on or after student's 16th birthday

Other CDC recommendations for teens include:

- Human Papillomavirus vaccine to protect against cervical cancer, genital warts & other cancers
- Varicella vaccine booster to protect against chickenpox
- Hepatitis A vaccine
- Annual Flu vaccine

Please discuss vaccines with your family doctor or call the Delaware General Health District at (740) 203-2040 to speak with a public health nurse or schedule an appointment
